

# M2 Ethernet-Card

## Network Interface Cards

- 4x 100BASE-T1 ports
- M.2 2280
- ca. 1W

[Home](#) / [Products](#) / [System & Device](#) / [Network Interface Cards](#) / **M2 Ethernet-Card**

The MicroSys M.2 module expands a system by 4x 100BASE-T1 ports. The M.2 module and the additionally offered T1-Connector boards are designed for operation in the extended temperature range from -40°C to 105°C.

## Features

### CPU

Interfaces

PCIe

### Memory

Operating Temperature

- Commercial (0°C to +70°C)
- Industrial (-40°C to +85°C)
- Automotive (-40°C to +105°C)

Formfactor

M.2 2280

## Mechanical

Power consumption ca. 1W

Connector Type

- 1x M.2
- 4x T1-Connector

## Software / Additional

Software Support

- Windows
- Linux
- Android drivers available

Our standard product versions offer what we consider to be the optimum configuration in terms of performance, price, usage and TDP. The product features lists specify the maximum range of functions per interface. However, not all interfaces or functions are always available in parallel. Flexible SERDES multiplexing is one of the reasons for this. In addition, we provide multiple memory expansion options and are also happy to accommodate specific customer wishes. So do not hesitate to contact us directly to discuss your desired configuration.
